

## THE WAY WE WORK

### CIVIL INTERIOR

The team understands the client's needs and suggests various options to match the requirement as per the client's taste, theme and ongoing trends of the market.

### FALSE CEILING

We have the specialty in providing best, modern and amazing look to the ceiling, which is usually a blend of grid patterns, lighting and return and diffuser placement. The material used for ceilings can vary from Gypsum, wooden, metal, Hilux, calcium silicate, E-board and mineral fiber board-to give the perfect ceiling.

### FLOORING

With our expertise in all ways of flooring like Raised Flooring, Vinyl Flooring, Wooden Flooring, Italian flooring etc. We suggest the flooring that will be best of particular area.

### WE SUGGEST

- 1.Rose Flooring which hides the cable and wire. We also suggest and provide underfloor air distribution which suits best for computer rooms or for room with equipment. This enables uniform cooling with lease energy consumption.
- 2.Wooden Flooring for theaters and conference rooms for sound absorbing feature.
- 3.Vinyl Flooring for a designed new stylish looks in residential or commercial areas.
- 4.Carpets for use in a wall-to wall design or a combination with other flooring styles.

### FURNISHING

The designers for furnishing suggest and provides with the furnishings as per the theme of the area to give a new look to the area.

### ELECTRICAL AND LIGHTING WORK

Every minute care is taken to hide cables and wires and given a clean and elegant look. The designer's right from the primary stages till the end stages take care for proper placing of code compliant conduit 'drags' and 'trapezes'.

### HVAC, PARTITION AND WALL PANELING

The team has an expertise for modular panel for critical and non-critical applications and looks after the installation in all the offices and large industrial units.

### CARPENTRY

Our team has specialized furniture designers with heart winning display of abilities in their modern designing. They are the head and hands behind giving the services making office furniture, training room, conference rooms, lobby area, storage areas etc.

### MODULER WORK

The team based on the client's specification of modular requirement, makes and designs modular work which is in accordance to the specific needs to please the clients both in terms of utility and looks.

### PAINTING AND FINISHING

The team gives the various options of distemper, luster, enamel, emulsion or textured painting and finish to the clients and based on the choice of the client, gives desired looks and environment to their imaginations.

### NETWORK AND TELECOMMUNICATION SET UP

The team makes proper provision for the network and telecommunication set up at the time of designing itself, so that things are in line with code compliant conduit 'drags' and 'trapezes' and facilitates the contractor to give a neat look, hiding all the wires and cables.

### AUDIO, VISUAL & PUBLIC ADDRESS SYSTEM

Proper provisions are made keeping the future needs of the clients and users. Provision for placement of the all probable equipment and gadgets are made and the wiring and other necessary facilities are taken care of in accordance with the planning.

### FIRE HYDRANT SYSTEM

The team designs keeping in consideration the amenities required to meet the entire emergency situation in a particular organization, the fire hydrant system. The long-term expertise of the team facilitates the safe environment.
